WHAT'S INSTALLED AT WEMBLEY ARENA?

- DX890 76**
- SX8500 22**
- ORDERMAN 6 DON**
- OVER 9KM OF DATA CABLING**
- 10 BARS**
- 17 KIOSKS**
- 200 SEATER RESTAURANT**

POINTS OF INTEREST

- One of the largest single EPOS network deployments in the UK.
- All 98 POS terminals are connected to the Epos LAN and updates/reports are sent/collected from Epos Multi-Site in minutes.
- Over 10,000 transactions during a typical evening concert at Wembley Arena.

THE LARGEST UNIWELL EPOS SYSTEM

Wembley Arena, the UK's premier concert venue, has recently re-opened after a massive £35m refurbishment program. Depeche Mode were the first band to perform after the 15 month closure, to a sell out crowd of 12,500.

As part of the refurbishment, Letheby & Christopher who run the bar and catering operation at the site, instructed MCR Systems Ltd to provide a robust and reliable Epos System.

With 98 POS terminals installed on a LAN comprising fibre-optic connectivity plus over 9Km of Cat6 data cabling, the implementation of this project was no mean feat.

There is a central control PC running Epos Multi-Site, with multiple data schemes, and

multi-zone sales analysis.

Designed specifically for the hospitality industry, Uniwell's range of EPOS terminals are ideally suited to meet the operational requirements of the Wembley Arena.

Uniwell products enjoy a reputation for quality and reliability around the world and the POS terminals have been designed

specifically for the Point of Sale, to provide maximum robustness and security.

There is no fan, hard disk drive or moving parts within the terminal. Uniwell terminals provide an extremely reliable solution capable of withstanding the challenging conditions found in hospitality and catering environments.

THE ARENA RESTAURANT—A WIRELESS EXPERIENCE

Ann Colleran (General Manager—L&C) had a vision for a state of the art Epos Solution, realising the potential of Handheld Order terminals.

MCR Systems provided 6 Orderman Don wireless handheld units, enabling order takers in the restaurant to process orders through to the

kitchen and bar, without ever leaving the restaurant floor.

Ann Colleran says "The service is so fast and effective and we can now process over 400 covers through the Arena Restaurant in less than 2 hours."

The arena restaurant overlooks the incredible interactive fountain in Arena Square.
